

3 Courses

Introduction to Cloud
Computing

Introduction to Artificial
Intelligence (AI)

What is Data Science?

08/22/2020

Prateek Kansal

has successfully completed the online, non-credit Specialization

Key Technologies for Business

In this specialization learners have gained a foundational knowledge of key technologies driving modern businesses. They can describe Cloud Computing, Data Science and Artificial Intelligence, including business drivers behind their growth, the value they provide, their applications and usecases, and an understanding of how these technologies work. The learners have also experienced Cloud, Data and AI in action and demonstrated ability to work with these technologies hands-on.

Polong Lin
Data Scientist, IBM

Alex Aklson, Ph.D.
Data Scientist

Rav Ahuja
AI & Data Science
Program Director
IBM Skills Network

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
